

## E Learning Package

### Breastfeeding for General Practitioners

This e-learning package is aimed at General Practitioners to support the delivery of the UNICEF Baby Friendly Community Award (stage 2) training

Cost: 1 pack £40 including CD, notes and pocket pack

- an interactive CD ROM with quizzes to check learning and automatic marking and feedback
- voice over presentation
- accompanying printout of powerpoint slides plus additional notes and references
- Pocket pack for quick reference
- BfN Drug Information sheets

The CD ROM can be completed in one session (approx 1 hour) or divided into 6 areas each of which finish with a quiz.

#### Topics covered:

- Importance of breastfeeding
- Understanding national and local targets
- How breastfeeding works
- Diagnosis and treatment of common problems which affect breastfeeding mothers including engorgement, sore nipples, mastitis and thrush
- Management of poor weight gain
- Prescribing for the breastfeeding mother: an understanding of licensing, pharmacokinetics of drug transfer, drugs which are contra indicated during breastfeeding and which should be used with care.
